WE'RE FOR AMERICA! AMERICANS!

THERE are every day strong evidences that the Sound Money Democrats have finally and forever cut loose from the new Populistic party. In New Haven, Conn., General K. E. BRADLEY has been nominated for Mayor by the Gold Standard Democrats, and the Republican nominees for Auditor and City Clerk were ignored. One thing is certain—no true Democrat can stand on a platform built of Populistic and flat money plank.

Wanted.

Tit for Tat.

Unterhaltungsblatt, Servant (from next door)—Herr Mayer sends his compliments and would you please stop your dog, as it won't let him go to sleep?

Neighbor—Give my respects to Herr Mayer and tell him I shall be much obliged if he will poison his daughter and burn her alive.

CAREFUL WITNESS.

Anxious to Tell the Truth and Avoid Heavily Evidence.

Chicago Record.

The young lawyer was determined that if vigilance could accomplish anything the case should be decided in favor of his client, and so when the careful old man went upon the stand for the defense the Attorney leaned forward, prepared to fight every inch of the way.

"Mr. Johnson, the plaintiff," said the careful old man, "and that if I would buy the house he would get Mr. Gilman to relinquish his lease. He said he thought Mr. Gilman would agree to go. I guess—"

"Never mind what you guess. We don't want any hearsay or guessing. Your Honor," to the Court, "I object to this witness' testimony. He is guessing at what he says. We want facts."

"Excuse me," said the careful old man. "I was about to say I guess at nothing, and insisted on the understanding being established in my presence. So the two men got together, with me on hand to listen to what he said. I understand—"

"Objected to as incompetent. Your Honor, we don't want to know what this man understands was done. We want what he knows was done. We want—"

"One moment," said the careful old man. "It was about to say that I understand ordinary conversation with some difficulty, and so that there might be no error, I insisted that they talk out their propositions in loud tones, which they did until you could hear them to the middle of town. I am informed—"

"Your Honor!" cried the young attorney, "Is our time to be taken up in listening to hearsay evidence? He is not known. He was informed that such and such was so and so. What we must have is what he knows about the trade, and whether or not he—"

"I am informed on real estate values, having been a real estate agent all my life," the careful man said, "and I know what the worth of that lease was to the holder of it. Knowing that fact, I would fix his damages at \$750.00. I believe—"

"Objected to as a conclusion and as incompetent. What any man believes is not necessarily good proof. I don't want to know what you believe, but what you know. We must insist on your telling what you know, and not what you surmise, or what you imagine. A courtroom is not a place for exploiting what a man believes, but what he is sure of. I think the Court will support me in saying that we don't want to know what he believes," said the young lawyer.

"I was going to say," said the witness, "that I believe that is all."

THE LEDGER'S PROPHECIES FULFILLED, JUICY PLUMS!

McKinley's Election Has Restored Confidence and Given a Big Boom to Business.

"Advance Agent of Prosperity."

THE LEDGER was insistent throughout the late campaign that the election of McKINLEY meant the restoration of Confidence and the immediate resumption of Manufacturing and Commercial Business throughout the country.

There were those who contended that the very opposite would be the case.

It is useless now to argue the question; it is settled by the results;—and that our readers may see who was right THE LEDGER will give, from day to day, a partial list of the industries that are reviving under the assurance that the incoming Administration will be friendly to American interests.

ASHLAND, KY.

D. I. Buchanan of Rossmore, Va., while here on business, reported the resumption of operations in full by the Crozier Iron Company, of which he is general manager. They have three furnaces in blast, with coal mines and coke ovens on full.

CHICAGO.

Inquiries for car material are increasing. It is estimated that negotiations are pending for 15,000 freight cars and that between now and next spring 50,000 cars will be ordered by the railroad companies. The iron market generally is strong.

MEMPHIS, TENN.

The Executive Board of the Southern Wholesale Grocers' Association met here and transacted only routine business. President E. G. Leigh, Jr. of Richmond, Va., in the course of an informal address, said in part: "Reports from the several trade centers indicate improved conditions throughout the South. This has been growing during the past year, and was greatly accelerated by the result of the National election. Collections are reported easier, and, in fact, I think the South is today in better condition than at any time during the past twenty years."

BIRMINGHAM, ALA.

The triumph of Sound Money at the recent election has secured a half-million dollar cotton mill for Birmingham. Trainer & Son of Chester, Pa., extensive cotton manufacturers, had practically completed negotiations late spring to locate such a mill here when the Free silver agitation came along and caused a suspension of operations. Late night one of the projectors of the enterprise reached here and announced the determination of his firm, since confidence had been restored and money had become easier, to proceed at once with the construction of the new mill.

ALBUQUERQUE, N.M.

Every day that passes more firmly convinces the National Democrats of the locality that their party acted for the good of the country in the late election. Numbers of farmers in Bracken B. Co., Grant and Scott counties have invested heavily in Arizona fruit lands, the water of which is to be supplied by an irrigating company of foreign capitalists. The entire \$3,000,000 worth of stock had been spoken for, and preparations made for work to commence on the system on a large scale. The probability of all support and the abandonment of the undertaking. The result of the election being for Sound Money, the enterprise was again taken up. Had this business failed, it would have forced some of the most substantial men in Northwestern Kentucky to the wall.

A Truthful Statement.

Aunt—Uncle, what dress did your mother put on to go to the ball?
Aunt—A long, white, short dress.
Aunt—Nonsense, it cannot have been both long and short.
Aunt—Yes, auntie, it was long at the bottom and short at the top.

TRADE REVIEW.

Reports From All Sections Show Enlargement of Business.

Disappointment Is Observed in the Iron and Steel Industry.

Combinations Retard Orders by Firms Which Can Not Be Maintained, but Trade on the Whole Is Improving—What Does It Mean in the West?

New York, Nov. 28.—R. E. Dun & Co. says Saturday in their weekly report of trade:

When the rush of orders after the election slackened many began to think business dwindling, but subsequence of deferred orders is not decrease of business. Disappointment is observed in the iron and steel industry because various combinations have been and still are retarding orders by prices which buyers believe can not be maintained, and the same is true in boots and shoes and in a few branches of textile goods. But business is on the whole improving and the employment of many hands will extend purchasing power. The settlement of the window glass controversy, starting many thousand hands, and the collapse of some important combinations, with the same effect, give promise of more business. Broadly speaking, the outlook is greater than anybody expected, and it is not surprising if a small part of it is in excess of the present consuming demand.

Reports from all parts of the country show clearly the enlargement of trade, not at all points in the same branches, but everywhere helped by a more confident feeling. Monetary difficulties have vanished as if by magic and banks with an enormous surplus of large supply of idle money are hunting borrowers as the borrowers were recently hunting lenders. Enormous gains in bank deposits, \$7,000,000 in two weeks, indicate something of the amount of funds recently hoarded.

What has risen over six cents for the week without material change in foreign values, which have been on the whole less stimulating. Corn has sympathized with wheat only a little, and is coming forward freely. The most important factor in the wheat market is that the visible supplies do not gain much as has been expected.

The collapse of the nail combination and probably of the beam combination, and considerable reduction in quotations for nails and beams, have been a look for a larger demand for products of iron and steel, but at present the sales against active orders are not made some time ago are depressing prices and Bessemer pig has sold at \$13.25, and according to some reports a better demand for such products as are not controlled by the combinations is somewhat increasing. In minor metals tin is so strong as it was a week ago, but copper and lead are stronger.

Statistics for the week have been 300 in the United States against 379 last year, and 36 in Canada against 47 last year.

ST. PAUL ELEVATOR

Destroyed by Fire, Estimated Loss of One Hundred Thousand Dollars.
ST. PAUL, Minn., Nov. 28.—With a fierce, raw wind blowing from the north and the temperature four degrees below zero, a fire broke out Friday evening at six o'clock in the elevator of the St. Paul Elevator and Warehouse Co., corner Third and Second streets. The whole fire department was at the scene within five minutes, but the building burned like a tinder box and there was no chance to save it. Shortly after 7 o'clock the structure fell with a crash, the debris covering the Milwaukee track to a depth of several feet and temporarily stopping traffic on that line. There were 100,000 bushels of grain in the elevator. The loss, \$100,000, covered by \$30,000 insurance.

KANSAS CITY, Mo., Nov. 28.—Charles H. Bailey, son of Judge O. P. Bailey, of Independence, is in jail here on the charge of forgery and credit for \$1,000 on the National Live Stock bank, of Fort Worth, Tex. All the money except \$500 was recovered. Shot and Killed by His Son in Self-Defense at Springfield, Mass.

SPRINGFIELD, Mass., Nov. 28.—J. W. Burney, of the city, was Friday night shot and killed by his son, a young man 21 years of age. The deed was provoked by the elder Burney who threatened the life of the youth. The tragedy occurred at the family residence and in the presence of the wife of the unfortunate victim. At supper time Mr. Burney, who has been on a prolonged spree since election, procured a rifle and pointed it at his home. He demanded that Mrs. Burney call the "Kid," as the time had come when he must shoot both of them. The young man happened to be in an adjoining room and, overhearing the conversation, came out only to be confronted by his father, who pointed the gun at him. At this he begged the enraged man to spare his life but without avail. As his father drew back the trigger, the young man seized his own gun which stood nearby in a corner, and before the drunken man could gain time to aim he shot him in the chest. Mr. Burney expired in half an hour.

Forty bodies have been recovered at the Piræus and boats are searching for persons who are missing and been supposed to have perished. The cemetery at the Piræus was inundated. No reliable estimate of the loss of property can yet be made, but it is known that the loss will amount to a large sum.

MUCH TIME

Devoted by the President to His Last Message.

It Is Expected to Be One of Mr. Cleveland's Ablest Documents.

Conditions of Affairs in Turkey Will Be Discussed in Detail—Will Recommend Increased Tariffs on Tea, Coffee and Beer—Says Greenback.

New York, Nov. 28.—A Herald special from Washington says:

President Cleveland has been devoting a great deal of time to his annual message during the last week and now he will in his last that it can be finished in a couple of days. The message is expected to be one of the ablest public documents Mr. Cleveland has written during his terms. It will be, in a sense, his farewell to the American people as their chief executive, and there is little doubt that it will embrace the opportunity to mark out the course he believes ought to be followed by the national policy for the maintenance and advancement of the honor and prosperity of the country.

Foreign affairs will naturally claim considerable attention, and the president will have an opportunity to congratulate congress and the country upon the solution of the boundary controversy in a manner honorable and satisfactory alike to the United States and to Great Britain and Venezuela. The condition of affairs in Turkey will be discussed in detail and the president will be able to show that the ordinary diplomatic agencies have failed for the protection of American life and property in the Turkish empire.

The third paragraph of the message to be written will be those dealing with the situation in Cuba. He will avail himself of the latest possible information as to the military situation in the island, and the prospects for the early success or failure of the insurgents may have much to do with shaping his policy. Present indications are that he will make no radical recommendations on this subject.

There is no prospect for enactment of any revenue or financial legislation during the rest of his term. Mr. Cleveland is understood to be preparing for an elaborate discussion of these subjects, and will recommend legislation which he believes, if carried out, will put the treasury and the financial system of the country on a sound basis.

The president will doubtless express his approval of recommendations for increasing the revenue by imposing revenue duties on tea and coffee and increasing the internal revenue tax on beer.

The financial reform recommendations of the message will be along the lines of Mr. Cleveland's former recommendations and will have as their basis the advocacy of the single gold standard as the foundation of the monetary system of the country.

The retirement of the greenbacks and the Sherman notes will be recommended, so as to take the government entirely out of the business of issuing promissory notes. Banking reform will be recommended at the same time, to enable the holders of the country to issue circulating notes which will be safe and which can be expanded or contracted in volume to meet the needs of the business of a country. Mr. Cleveland is alive to the necessity of continuing the expansion of the navy and of constructing coast defenses to put the country in a condition to resist foreign aggression and the recommendations of these lines made by Secretary Lamont and Herbert in their annual reports will be succeeded in the message.

ASHLAND, Ky., Nov. 28.—Sam J. The dividing line will probably leave the river a short distance below Covington, crossing the state to Tennessee. The idea is to save transportation expenses of prisoners, who have to be taken to Louisville or Covington from the extreme eastern counties. Ashland will be urged as a suitable place for one of the four points for the holding of United States court, and a new government building would probably follow such selection.
